Game Launch Target: January 2026

Token Address: 7cnoy1UgbiLSm9kDbKR8yKv1hUtvKE92L4iUZSZ4ze6a

FLYF is the world's first flip-to-earn mobile game built on the Solana blockchain. Players earn FLYF tokens by performing airborne phone flips in the real world, blending physical activity, fun, and cryptocurrency rewards. Our mission is to inspire movement, reward skill, and connect a global community of players, collectors, and investors.

Roadmap

Q3 2025 – Token launch on Solana, Initial Raydium liquidity pool, Marketing & community building.

Q4 2025 – Closed beta of Flyfone game, NFT avatar integration, Player leaderboard testing.

Q1 2026 – Official game launch (January 2026), Global marketing campaign, Major airdrop & rewards event.

Q2 2026+ – ETH cross-chain integration, Expansion of NFTs and staking options, Partnerships with fitness & esports brands.

Vision

We envision FLYF as a multi-chain gaming economy, starting on Solana and expanding to Ethereum. Our goal is to merge physical skill-based gaming with cryptocurrency incentives, creating a long-term sustainable ecosystem where players own their achievements and investors benefit from growth.

How to Buy FLYF

Step 1: Set up a Solana Wallet – Download Phantom or Solflare.

Step 2: Fund with SOL – Purchase Solana (SOL) from an exchange and send to your wallet.

Step 3: Swap on Raydium – Go to the Raydium Pool and swap SOL for FLYF.
